BAKER ANGUS

VALE, OREGON

Dear Friends and Fellow Cattlemen,

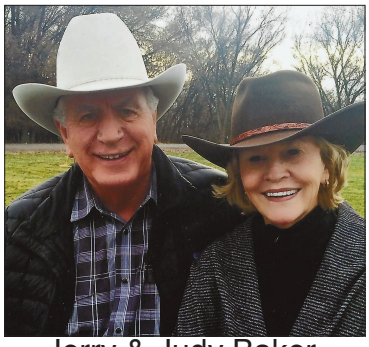
Please join us at Baker Angus on February 24, 2018 for our 14th Annual Genetic Extra Bull & Female Sale. We have been breeding registered Angus cattle for over 36 years. We only keep the females that are trouble free. We require good, strong mothers that don't have trouble calving. We have a very vigorous culling program.

Most of the cows calve while they are on summer pasture in Halfway, Oregon. The heifers are pastured in the mountains in Indian Valley, Idaho and are brought home to calve. The cattle in the offering are fed hay and corn silage. The bulls are never pushed hard and we feel this contributes to their longevity. We unconditionally guarantee our bulls for their first breeding season. We invite you to view the cattle any time prior to the sale.

We want to thank our crew for all their hard work to produce this year's offering of cattle: Samuel Mahler, Russell Givens, Samuel Peck, Ken Lowry and their families.

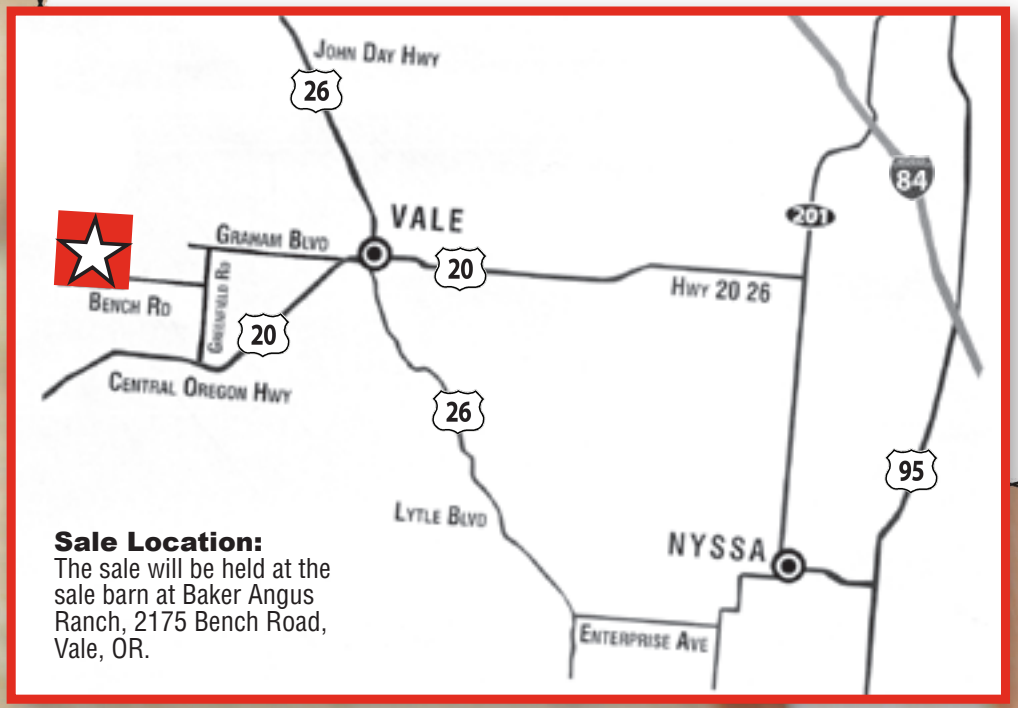
We look forward to seeing you at the ranch and invite you to our pre-sale steak luncheon, starting at 11:30 a.m. on sale day. If you can't be with us on sale day, the offering will also sell live, via LiveAuction.TV.

Cordially,
Jerry & Judy Baker
Baker Angus



Jerry & Judy Baker

The crew at Baker Angus welcomes you.



Sale Location:
The sale will be held at the sale barn at Baker Angus Ranch, 2175 Bench Road, Vale, OR.

Samuel, Esther, Maleina, Marishka & Eli Mahler

Transportation: Upon request, with sufficient time, planes will be met at the Ontario, Vale or Boise airports.

Terms & Conditions: Cattle will sell under the Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). Except for those stated terms and conditions, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties and guarantees set forth in the "Terms and Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer (or any claiming through buyer) for any breach of warranty or guarantee therein provided and all other obligations available at the clerk's office sale day.

Retaining Interest: Unless stated otherwise, Baker Angus and Mahler Cattle Co. will be retaining a 1/3 semen interest in every bull selling. Buyer shall have full possession and full salvage value of the bull.

Health: All Baker and Mahler bulls selling are official calfhood vaccinated, semen tested and have passed a negative BVD test.

Ultrasound: All bulls will be ultrasounded for IMF, Ribeye and Fat.

Livestock Mortality Insurance: Mortality insurance on your purchases can be obtained through American Live Stock Insurance Co. at the time of settlement.

Delivery: Free delivery on bulls, up to 150 mile radius of Vale, OR. Free delivery up to 300 mile radius of Vale, OR on the purchase of five or more bulls.

Feeding of Bulls: Bulls may be left at the ranch at no charge up to April 1, 2018. After April 1, 2018 a feeding charge of $2.50 per head per day will be assessed. All bulls left at the ranch must be insured.

Lot Numbers: Lot numbers on the sale cattle will correspond to the sale book.

Food & Refreshments: Complimentary lunch will be available sale day beginning at 11:30 a.m.

Inspection of Cattle: Cattle will be available for inspection at the ranch anytime prior to the sale.

Liability: All persons attending the sale do so at their own risk. Baker Angus assumes no liability, legal or otherwise, for any accidents that may occur on or about the premises.

WHY WE TEST WITH i50K FROM ZOETIS

Powered by i50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying i50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the i50K tested sires you buy from us to match calves and replacement heifers — through GeneMax® Advantage™ and GeneMax® Focus™— to make better breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with i50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs powered by i50K

Trait	Progeny Equivalents
Heifer Pregnancy (HP)	14
Calving Ease Direct (CED)	28
Birth Weight (BW)	21
Milk	33
Docility (Doc)	10
Scrotal Circumference (SC)	13
Weaning Weight (WW)	26
Yearling Weight (YW)	21

GMX GENEMAX Advantage GMX GENEMAX Focus zoetis

Welcome to the 2018 Baker Angus Genetic Extra Bull Sale.

This outstanding set of 150 bulls that are 16-17 months old represent over 36 years of breeding Angus cattle that not only perform in a tough environment, but do so while continually improving maternal, carcass and most importantly functional traits that make it easier to maintain longevity and productivity in your cowherd. Their extensive A.I. program uses some of the most proven and sought after bulls in the Angus business. Jerry has also gone out and added some outstanding herd bulls that have sired calves that have outperformed some of the A.I. sires. This group of bulls are big spread bulls with added volume, length and dimension. We have the biggest selection of heifer bulls ever offered here at Baker Angus. I truly believe this set of bulls will simply add pounds and muscle to your calf crop and you will keep every female.

Every bull sells with complete performance evaluation and have been through the i50K Zoetis DNA test to enhance their EPDs to give you the most proven product you can kick out in your cow herd or turn with your heifers. These bulls climb a hill every day between feed and water and are as sound as you can make one. They are carrying some more maturity and age for you to get out and cover some big country, but are not overly conditioned so that the acclimation period to your program is minimal. They are simply bred to work for the commercial cattle business and nothing else.

As always the hospitality and customer service is second to none, please contact Jerry or Sam if you have any questions about the offering, they will be glad to answer any questions.

I have had the opportunity to evaluate each and every bull, if you have any questions for me, please do not hesitate to call. Videos will be available before the sale and if you cannot make it, please go to www.liveauctions.tv to sign up and bid online.

I look forward to seeing you sale day!

Matt Macfarlane

Proven calving-ease sire with impressive growth and carcass numbers.

First calves have been well received and high sellers across the country.

Authentic sired calves are very easy to look at, docile and have an EPD profile that is hard to beat. We thought enough of him that we used the sons, Lots 3 and 4, to clean up our heifers this year.

Among the breed's top registration sires, Resource is in a league of his own for siring body dimension, fleshing ease, muscle thickness and breed character. He consistently sires high quality, functional phenotype and unprecedented productivity.

Resource daughters are prized assets in our breeding programs that admire eye-appealing, highly productive females that are easy to be around and look at.

His sons have been crowd favorites at our sale for the past few years. Real power bulls with added muscle and stoutness.

Double Vision consistently sires rapid early performance and added frame size without sacrificing foot quality and structural design.

He is an outcross sire for our program and today's popular performance and carcass pedigrees and is well-proven to transmit high-octane growth resulting in added CW.

Cattlemen appreciate his fertility in addition to his added muscle, substance of bone and calm demeanor.

Rathbun Double Vision B629

This son of Jindra Double Vision, Reference Sire C, was added to our program to add performance and carcass value without sacrificing maternal and function. They ratio better than most of our AI sires for WW and YW.

He has a very functional pedigree out of a powerful Net Worth daughter that Greg Rathbun has very high on his list in his cowherd.

Cattlemen will appreciate power, added muscle, substance and performance.

These sons and grandsons of Jindra Double Vision are really solid. This one will work on heifers and has as much power as you can put on a mature cow. Another solid maternal female stands behind him and well. Elite $W (top 1%) and $B (top 2%) numbers! Retaining one-half interest and Fall possession.

A stout bull that is wide-based and thick, and his sons have a really balanced set of numbers.

He is a maternal brother to Black Granite with an awesome phenotype and a useful set of EPDs.

Western Cut progeny perform from start to finish and daughters should be tremendous females.

The Bruiser sons have been well received by all of our commercial customers for years.

The #1 Sire for Total Profit and Feed Efficiency Indexes through the Angus Sire Alliance commercial testing ground.

Progeny earned him a top 1% ADG EPD combined with a top 5% EPD for reduced Feed Intake.

Transmits added volume, capacity and dimension.

Low birth weight S A V sire with breed-leading growth.

His calves get up and nurse and are ready to go.

A double-digit Calving Ease Direct EPD and a minus Birth Weight EPD, this elite sire of Docility EPD and Ribeye EPD and his sons have the same package.

His sons have extra length of body, tight sheaths and excellent foot structure. They are almost all calving-ease type prospects.

A popular outcross, cow maker and customer pleaser.

Chisum will sire stout-made, wide bodied cattle that add up on the scale.

His daughters are easy fleshing, docile, functional cattle that work in any environment.

His sons are chubby with extra capacity and flawless structure.

The top-selling bull out of the 2015 Kessler sale that is from a proven mating that has produced numerous herd bulls.

We selected him to add the Ten X influence to our herd and maintain structural quality and added performance.

His sons have performed right with our A.I. sires.

A bull that we added from longtime friends, Rob and Lori Thomas for his extra performance and carcass value (top 25% of the breed or better for WW, YW, MB, RE and Fat).

No holes in his genetic makeup and the bulls have extra body length and scale.

Baker Game On 21366 4786 - *Lot 114*

This high Marbling bull (top 2% of the breed) comes from the Thomas Ester cow family that has done so much for the Thomas program and the breed.

His sons should produce females you'll want to keep and very valuable CAB prospects at sale time.
